HUMAN SERVICES

NEW SECTION. **Sec. 201. FOR THE DEPARTMENT OF SOCIAL AND HEALTH SERVICES.** (1) Appropriations made in this act to the department of social and health services shall initially be allotted as required by this act. Subsequent allotment modifications shall not include transfers of moneys between sections of this act except as expressly provided in this act, nor shall allotment modifications permit moneys that are provided solely for a specified purpose to be used for other than that purpose, except as expressly provided in subsection (3) of this section.

(2) The department of social and health services shall not initiate any services that will require expenditure of state general fund moneys unless expressly authorized in this act or other law. The department may seek, receive, and spend, under RCW 43.79.260 through 43.79.282, federal moneys not anticipated in this act as long as the federal funding does not require expenditure of state moneys for the program in excess of amounts anticipated in this act. If the department receives unanticipated unrestricted federal moneys, those moneys shall be spent for services authorized in this act or in any other legislation providing appropriation authority, and an equal amount of appropriated state general fund moneys shall lapse. Upon the lapsing of any moneys under this subsection, the office of financial management shall notify the legislative fiscal committees. As used in this subsection, "unrestricted federal moneys" includes block grants and other funds that federal law does not require to be spent on specifically defined projects or matched on a formula basis by state funds.

(3)(a) The appropriations to the department of social and health services in this act shall be expended for the programs and in the amounts specified herein. However, after May 1, 2002, unless specifically prohibited by this act, the department may transfer general fund--state appropriations for fiscal year 2002 among programs after approval by the director of financial management. However, the department shall not transfer state moneys that are provided solely for a specified purpose except as expressly provided in subsections (3)(b) and (c) of this section.

(b) To the extent that transfers under subsection (3)(a) of this section are insufficient to fund actual expenditures in excess of fiscal year 2002 caseload forecasts and utilization assumptions in the medical assistance, long-term care, foster care, adoption support, voluntary placement, and child support programs, the department may transfer state moneys that are provided solely for a specified purpose after approval by the director of financial management.

(c) Net administrative and operational savings, as determined by the secretary, realized within the funds appropriated to the department of social and health services for those purposes, may be transferred among programs solely for reducing caseload management ratios in the children's administration, developmental disabilities administration, and aging and adult services administration. The transfer shall not exceed ten million dollars in general fund--state to improve the specified caseload management ratios above the assumed funding levels. Annual progress reports shall be provided to the office of financial management and legislative fiscal committees.

30 NEW SECTION. **Sec. 502. FOR THE SUPERINTENDENT OF PUBLIC**
31 **INSTRUCTION--FOR GENERAL APPORTIONMENT**

32	General Fund--State Appropriation (FY 2002)	\$3,743,490,000
33	General Fund--State Appropriation (FY 2003)	\$3,739,221,000
34	TOTAL APPROPRIATION	\$7,482,711,000

35 The appropriations in this section are subject to the following
36 conditions and limitations:

(1) Each general fund fiscal year appropriation includes such funds as are necessary to complete the school year ending in the fiscal year and for prior fiscal year adjustments.

(2) Allocations for certificated staff salaries for the 2001-02 and 2002-03 school years shall be determined using formula-generated staff units calculated pursuant to this subsection. Staff allocations for small school enrollments in (d) through (f) of this subsection shall be reduced for vocational full-time equivalent enrollments. Staff allocations for small school enrollments in grades K-6 shall be the greater of that generated under (a) of this subsection, or under (d) and (e) of this subsection. Certificated staffing allocations shall be as follows:

(a) On the basis of each 1,000 average annual full-time equivalent enrollments, excluding full-time equivalent enrollment otherwise recognized for certificated staff unit allocations under (c) through (f) of this subsection:

(i) Four certificated administrative staff units per thousand full-time equivalent students in grades K-12;

(ii) 49 certificated instructional staff units per thousand full-time equivalent students in grades K-3;

(iii) An additional 6.4 certificated instructional staff units for grades K-3 and an additional 9.4 certificated instructional staff units for grade 4;

(A) Funds provided under this subsection (2)(a)(iii) in excess of the amount required to maintain the statutory minimum ratio established under RCW 28A.150.260(2)(b) shall be allocated only if the district documents an actual ratio equal to or greater than 55.4 certificated instructional staff per thousand full-time equivalent students in grades K-4. For any school district documenting a lower certificated instructional staff ratio, the allocation shall be based on the district's actual grades K-4 certificated instructional staff ratio achieved in that school year, or the statutory minimum ratio established under RCW 28A.150.260(2)(b), if greater;

(B) Districts at or above 53.2 certificated instructional staff per one thousand full-time equivalent students in grades K-4 may dedicate up to 1.3 of the 55.4 funding ratio to employ additional classified instructional assistants assigned to basic education classrooms in grades K-4. For purposes of documenting a district's staff ratio under this section, funds used by the district to employ additional

1 classified instructional assistants shall be converted to a
2 certificated staff equivalent and added to the district's actual
3 certificated instructional staff ratio. Additional classified
4 instructional assistants, for the purposes of this subsection, shall be
5 determined using the 1989-90 school year as the base year;

6 (C) Any district maintaining a ratio equal to or greater than 55.4
7 certificated instructional staff per thousand full-time equivalent
8 students in grades K-4 may use allocations generated under this
9 subsection (2)(a)(iii) in excess of that required to maintain the
10 minimum ratio established under RCW 28A.150.260(2)(b) to employ
11 additional basic education certificated instructional staff or
12 classified instructional assistants in grades 5-6. Funds allocated
13 under this subsection (2)(a)(iii) shall only be expended to reduce
14 class size in grades K-6. No more than 1.3 of the certificated

20 equivalent students whose full-time equivalent student enrollment count
21 in a given month exceeds the first of the month full-time equivalent
22 enrollment count by 5 percent, an additional state allocation of 110
23 percent of the share that such increased enrollment would have
24 generated had such additional full-time equivalent students been
25 included in the normal enrollment count for that particular month;

26 (c)(i) On the basis of full-time equivalent enrollment in:

27 (A) Vocational education programs approved by the superintendent of
28 public instruction, a maximum of 0.92 certificated instructional staff
29 units and 0.08 certificated administrative staff units for each 19.5

31 and the 2002-03 school year. Districts documenting staffing ratios of
32 less than 1 certificated staff per 19.5 students shall be allocated the

39 vocational students;

(ii) Indirect cost charges, as defined by the superintendent of public instruction, to vocational-secondary programs shall not exceed 10 percent; and

(iii) Vocational full-time equivalent enrollment shall be reported on the same monthly basis as the enrollment for students eligible for basic support, and payments shall be adjusted for reported vocational enrollments on the same monthly basis as those adjustments for enrollment for students eligible for basic support.

(d) For districts enrolling not more than twenty-five average annual full-time equivalent students in grades K-8, and for small school plants within any school district which have been judged to be remote and necessary by the state board of education and enroll not more than twenty-five average annual full-time equivalent students in grades K-8:

(i) For those enrolling no students in grades 7 and 8, 1.76 certificated instructional staff units and 0.24 certificated administrative staff units for enrollment of not more than five students, plus one-twentieth of a certificated instructional staff unit for each additional student enrolled; and

(ii) For those enrolling students in grades 7 or 8, 1.68 certificated instructional staff units and 0.32 certificated administrative staff units for enrollment of not more than five students, plus one-tenth of a certificated instructional staff unit for each additional student enrolled;

(e) For specified enrollments in districts enrolling more than twenty-five but not more than one hundred average annual full-time equivalent students in grades K-8, and for small school plants within any school district which enroll more than twenty-five average annual full-time equivalent students in grades K-8 and have been judged to be remote and necessary by the state board of education:

(i) For enrollment of up to sixty annual average full-time equivalent students in grades K-6, 2.76 certificated instructional staff units and 0.24 certificated administrative staff units; and

(ii) For enrollment of up to twenty annual average full-time equivalent students in grades 7 and 8, 0.92 certificated instructional staff units and 0.08 certificated administrative staff units;

(f) For districts operating no more than two high schools with enrollments of less than three hundred average annual full-time

1 equivalent students, for enrollment in grades 9-12 in each such school,
2 other than alternative schools:

3 (i) For remote and necessary schools enrolling students in any
4 grades 9-12 but no more than twenty-five average annual full-time
5 equivalent students in grades K-12, four and one-half certificated
6 instructional staff units and one-quarter of a certificated
7 administrative staff unit;

8 (ii) For all other small high schools under this subsection, nine
9 certificated instructional staff units and one-half of a certificated
10 administrative staff unit for the first sixty average annual full time
11 equivalent students, and additional staff units based on a ratio of
12 0.8732 certificated instructional staff units and 0.1268 certificated
13 administrative staff units per each additional forty-three and one-half
14 average annual full time equivalent students.

15 Units calculated under (f)(ii) of this subsection shall be reduced
16 by certificated staff units at the rate of forty-six certificated
17 instructional staff units and four certificated administrative staff
18 units per thousand vocational full-time equivalent students.

19 (g) For each nonhigh school district having an enrollment of more
20 than seventy annual average full-time equivalent students and less than
21 one hundred eighty students, operating a grades K-8 program or a grades
22 1-8 program, an additional one-half of a certificated instructional
23 staff unit; and

24 (h) For each nonhigh school district having an enrollment of more
25 than fifty annual average full-time equivalent students and less than
26 one hundred eighty students, operating a grades K-6 program or a grades
27 1-6 program, an additional one-half of a certificated instructional
28 staff unit.

29 (3) Allocations for classified salaries for the 2001-02 and 2002-03
30 school years shall be calculated using formula-generated classified
31 staff units determined as follows:

32 (a) For enrollments generating certificated staff unit allocations
33 under subsection (2)(d) through (h) of this section, one classified
34 staff unit for each three certificated staff units allocated under such
35 subsections;

36 (b) For all other enrollment in grades K-12, including vocational
37 full-time equivalent enrollments, one classified staff unit for each
38 sixty average annual full-time equivalent students; and

1 (c) For each nonhigh school district with an enrollment of more
2 than fifty annual average full-time equivalent students and less than
3 one hundred eighty students, an additional one-half of a classified
4 staff unit.

5 (4) Fringe benefit allocations shall be calculated at a rate of
6 11.16 percent in the 2001-02 and 2002-03 school years for certificated
7 salary allocations provided under subsection (2) of this section, and
8 a rate of 12.73 percent in the 2001-02 and 2002-03 school years for
9 classified salary allocations provided under subsection (3) of this
10 section.

11 (5) Insurance benefit allocations shall be calculated at the
12 maintenance rate specified in section 504(2) of this act, based on the
13 number of benefit units determined as follows:

14 (a) The number of certificated staff units determined in subsection
15 (2) of this section; and

16 (b) The number of classified staff units determined in subsection
17 (3) of this section multiplied by 1.152. This factor is intended to
18 adjust allocations so that, for the purposes of distributing insurance
19 benefits, full-time equivalent classified employees may be calculated
20 on the basis of 1440 hours of work per year, with no individual
21 employee counted as more than one full-time equivalent.

22 (6)(a) For nonemployee-related costs associated with each
23 certificated staff unit allocated under subsection (2)(a), (b), and (d)
24 through (h) of this section, there shall be provided a maximum of
25 \$8,552 per certificated staff unit in the 2001-02 school year and a
26 maximum of \$8,757 per certificated staff unit in the 2002-03 school
27 year.

28 (b) For nonemployee-related costs associated with each vocational
29 certificated staff unit allocated under subsection (2)(c)(i)(A) of this
30 section, there shall be provided a maximum of \$21,001 per certificated
31 staff unit in the 2001-02 school year and a maximum of \$21,505 per
32 certificated staff unit in the 2002-03 school year.

33 (c) For nonemployee-related costs associated with each vocational
34 certificated staff unit allocated under subsection (2)(c)(i)(B) of this
35 section, there shall be provided a maximum of \$16,296 per certificated
36 staff unit in the 2001-02 school year and a maximum of \$16,687 per
37 certificated staff unit in the 2002-03 school year.

38 (7) Allocations for substitute costs for classroom teachers shall
39 be distributed at a maintenance rate of \$494.34 for the 2001-02 and

1 2002-03 school years per allocated classroom teachers exclusive of
2 salary increase amounts provided in section 504 of this act. Solely
3 for the purposes of this subsection, allocated classroom teachers shall
4 be equal to the number of certificated instructional staff units
5 allocated under subsection (2) of this section, multiplied by the ratio
6 between the number of actual basic education certificated teachers and
7 the number of actual basic education certificated instructional staff
8 reported state-wide for the 2000-01 school year.

9 (8) Any school district board of directors may petition the
10 superintendent of public instruction by submission of a resolution
11 adopted in a public meeting to reduce or delay any portion of its basic
12 education allocation for any school year. The superintendent of public
13 instruction shall approve such reduction or delay if it does not impair
14 the district's financial condition. Any delay shall not be for more
15 than two school years. Any reduction or delay shall have no impact on
16 levy authority pursuant to RCW 84.52.0531 and local effort assistance
17 pursuant to chapter 28A.500 RCW.

18 (9) The superintendent may distribute a maximum of \$6,516,000
19 outside the basic education formula during fiscal years 2000 and 2001
20 as follows:

21 (a) For fire protection for school districts located in a fire
22 protection district as now or hereafter established pursuant to chapter
23 52.04 RCW, a maximum of \$482,000 may be expended in fiscal year 2000
24 and a maximum of \$494,000 may be expended in fiscal year 2001;

25 (b) For summer vocational programs at skills centers, a maximum of
26 \$2,098,000 may be expended each fiscal year;

27 (c) A maximum of \$344,000 may be expended for school district
28 emergencies; and

29 (d) A maximum of \$500,000 per fiscal year may be expended for
30 programs providing skills training for secondary students who are
31 enrolled in extended day school-to-work programs, as approved by the
32 superintendent of public instruction. The funds shall be allocated at
33 a rate not to exceed \$500 per full-time equivalent student enrolled in
34 those programs;

35 (10) For purposes of RCW 84.52.0531, the increase per full-time
36 equivalent student in state basic education appropriations provided
37 under this act, including appropriations for salary and benefits
38 increases, is 2.2 percent from the 2000-01 school year to the 2001-02

1 school year, and 3.0 percent from the 2001-02 school year to the 2002-
2 03 school year.

3 (11) If two or more school districts consolidate and each district
4 was receiving additional basic education formula staff units pursuant
5 to subsection (2)(b) through (h) of this section, the following shall
6 apply:

7 (a) For three school years following consolidation, the number of
8 basic education formula staff units shall not be less than the number
9 of basic education formula staff units received by the districts in the
10 school year prior to the consolidation; and

11 (b) For the fourth through eighth school years following
12 consolidation, the difference between the basic education formula staff
13 units received by the districts for the school year prior to
14 consolidation and the basic education formula staff units after
15 consolidation pursuant to subsection (2)(a) through (h) of this section
16 shall be reduced in increments of twenty percent per year.

15 NEW SECTION. **Sec. 507. FOR THE SUPERINTENDENT OF PUBLIC**
16 **INSTRUCTION--FOR SPECIAL EDUCATION PROGRAMS**

17	General Fund--State Appropriation (FY 2002)	\$	414,524,000
18	General Fund--State Appropriation (FY 2003)	\$	413,303,000
19	General Fund--Federal Appropriation	\$	178,685,000
20	TOTAL APPROPRIATION	\$	1,006,512,000

21 The appropriations in this section are subject to the following
22 conditions and limitations:

23 (1) Funding for special education programs is provided on an excess
24 cost basis, pursuant to RCW 28A.150.390. School districts shall
25 ensure, to the greatest extent possible, that special education
26 students receive their appropriate share of the general apportionment
27 allocation accruing through sections 502 and 504 of this act. To the
28 extent a school district cannot provide an appropriate education for
29 special education students under chapter 28A.155 RCW through the
30 general apportionment allocation, it shall provide services through the
31 special education allocation funded in this section.

32 (2) Each general fund--state fiscal year appropriation includes
33 such funds as are necessary to complete the school year ending in the
34 fiscal year and for prior fiscal year adjustments.

35 (3) The superintendent of public instruction shall distribute state
36 funds to school districts based on two categories: The optional birth

1 through age two program for special education eligible developmentally
2 delayed infants and toddlers, and the mandatory special education
3 program for special education eligible students ages three to twenty-
4 one. A "special education eligible student" means a student receiving
5 specially designed instruction in accordance with a properly formulated
6 individualized education program.

7 (4) For the 2001-02 and 2002-03 school years, the superintendent
8 shall distribute state funds to each district based on the sum of:

9 (a) A district's annual average headcount enrollment of
10 developmentally delayed infants and toddlers ages birth through two,
11 multiplied by the district's average basic education allocation per
12 full-time equivalent student, multiplied by 1.15; and

13 (b) A district's annual average full-time equivalent basic
14 education enrollment multiplied by the funded enrollment percent
15 determined pursuant to subsection (5)(c) of this section, multiplied by
16 the district's average basic education allocation per full-time
17 equivalent student multiplied by 0.9309.

18 (5) The definitions in this subsection apply throughout this
19 section.

20 (a) "Average basic education allocation per full-time equivalent
21 student" for a district shall be based on the staffing ratios required
22 by RCW 28A.150.260 and shall not include enhancements, secondary
23 vocational education, or small schools.

24 (b) "Annual average full-time equivalent basic education
25 enrollment" means the resident enrollment including students enrolled
26 through choice (RCW 28A.225.225) and students from nonhigh districts
27 (RCW 28A.225.210) and excluding students residing in another district
28 enrolled as part of an interdistrict cooperative program (RCW
29 28A.225.250).

30 (c) "Enrollment percent" means the district's resident special
31 education annual average enrollment including those students counted
32 under the special education demonstration projects, excluding the birth
33 through age two enrollment, as a percent of the district's annual
34 average full-time equivalent basic education enrollment. For the 2001-
35 02 and the 2002-03 school years, each district's funded enrollment
36 percent shall be the lesser of the district's actual enrollment percent
37 for the school year for which the allocation is being determined or
38 12.7 percent.

(6) At the request of any interdistrict cooperative of at least 15 districts in which all excess cost services for special education students of the districts are provided by the cooperative, the maximum enrollment percent shall be 12.7, and shall be calculated in the aggregate rather than individual district units. For purposes of this subsection, the average basic education allocation per full-time equivalent student shall be calculated in the aggregate rather than individual district units.

(7) A maximum of \$12,000,000 of the general fund--state appropriation for fiscal year 2002 and a maximum of \$12,000,000 of the general fund--state appropriation for fiscal year 2003 are provided as safety net funding for districts with demonstrated needs for state special education funding beyond the amounts provided in subsection (4) of this section. Safety net funding shall be awarded by the state safety net oversight committee.

(a) The safety net oversight committee shall first consider the needs of districts adversely affected by the 1995 change in the special education funding formula. Awards shall be based on the amount required to maintain the 1994-95 state special education excess cost allocation to the school district in aggregate or on a dollar per funded student basis.

(b) The committee shall then consider unusual needs of districts due to a special education population which differs significantly from the assumptions of the state funding formula. Awards shall be made to districts that convincingly demonstrate need due to the concentration and/or severity of disabilities in the district. Differences in program costs attributable to district philosophy or service delivery style are not a basis for safety net awards.

(c) The maximum allowable indirect cost for calculating safety net eligibility may not exceed the federal restricted indirect cost rate for the district plus one percent.

(d) Safety net awards shall be adjusted based on the percent of potential medicaid eligible students billed as calculated by the superintendent in accordance with RCW 74.09.5255 and 74.09.5256.

(e) Safety net awards must be adjusted for any audit findings or exceptions related to special education funding.

(f) The superintendent may expend up to \$100,000 per year of the amounts provided in this subsection to provide staff assistance to the

1 committee in analyzing applications for safety net funds received by
2 the committee.

3 (8) The superintendent of public instruction may adopt such rules
4 and procedures as are necessary to administer the special education
5 funding and safety net award process. Prior to revising any standards,
6 procedures, or rules, the superintendent shall consult with the office
7 of financial management and the fiscal committees of the legislature.

8 (9) The safety net oversight committee appointed by the
9 superintendent of public instruction shall consist of:

10 (a) Staff of the office of superintendent of public instruction;

11 (b) Staff of the office of the state auditor;

12 (c) Staff of the office of the financial management; and

13 (d) One or more representatives from school districts or
14 educational service districts knowledgeable of special education
15 programs and funding.

16 (10) To the extent necessary, \$5,500,000 of the general fund--
17 federal appropriation shall be expended for safety net funding to meet
18 the extraordinary needs of one or more individual special education
19 students. If safety net awards to meet the extraordinary needs of one
20 or more individual special education students exceed \$5,500,000 of the
21 general fund--federal appropriation, the superintendent shall expend
22 all available federal discretionary funds necessary to meet this need.
23 General fund--state funds shall not be expended for this purpose.

24 (11) The superintendent shall maintain the percentage of federal
25 flow-through to school districts at 85 percent. In addition to other
26 purposes, school districts may use increased federal funds for high-
27 cost students, for purchasing regional special education services from
28 educational service districts, and for staff development activities
29 particularly relating to inclusion issues.

30 (12) A maximum of \$1,000,000 of the general fund--federal
31 appropriation is provided for projects to provide special education
32 students with appropriate job and independent living skills, including
33 work experience where possible, to facilitate their successful
34 transition out of the public school system. The funds provided by this
35 subsection shall be from federal discretionary grants.

36 (13) A maximum of \$678,000 may be expended from the general fund--
37 state appropriations to fund 5.43 full-time equivalent teachers and 2.1
38 full-time equivalent aides at children's orthopedic hospital and

1 medical center. This amount is in lieu of money provided through the
2 home and hospital allocation and the special education program.

3 (14) A maximum of \$1,200,000 of the general fund--federal
4 appropriation may be expended by the superintendent for projects
5 related to use of inclusion strategies by school districts for
6 provision of special education services. The superintendent shall
7 prepare an information database on laws, best practices, examples of
8 programs, and recommended resources. The information may be
9 disseminated in a variety of ways, including workshops and other staff
10 development activities.

11 (15) A school district may carryover from one year to the next year
12 up to 10 percent of general fund--state funds allocated under this
13 program; however, carryover funds shall be expended in the special
14 education program.

MISCELLANEOUS

NEW SECTION. **Sec. 901.** **EXPENDITURE AUTHORIZATIONS.** The appropriations contained in this act are maximum expenditure authorizations. Pursuant to RCW 43.88.037, moneys disbursed from the treasury on the basis of a formal loan agreement shall be recorded as loans receivable and not as expenditures for accounting purposes. To the extent that moneys are disbursed on a loan basis, the corresponding appropriation shall be reduced by the amount of loan moneys disbursed from the treasury during the 1999-01 biennium.

NEW SECTION. **Sec. 902. INFORMATION SYSTEMS PROJECTS.** Agencies shall comply with the following requirements regarding information systems projects when specifically directed to do so by this act.

(1) Agency planning and decisions concerning information technology shall be made in the context of its information technology portfolio. "Information technology portfolio" means a strategic management approach in which the relationships between agency missions and information technology investments can be seen and understood, such that: Technology efforts are linked to agency objectives and business plans; the impact of new investments on existing infrastructure and business functions are assessed and understood before implementation; and agency activities are consistent with the development of an integrated, nonduplicative statewide infrastructure.

(2) Agencies shall use their information technology portfolios in making decisions on matters related to the following:

(a) System refurbishment, acquisitions, and development efforts;

(b) Setting goals and objectives for using information technology in meeting legislatively-mandated missions and business needs;

(c) Assessment of overall information processing performance, resources, and capabilities;

(d) Ensuring appropriate transfer of technological expertise for the operation of any new systems developed using external resources; and

(e) Progress toward enabling electronic access to public information.

1 (3) Each project will be planned and designed to take optimal
2 advantage of Internet technologies and protocols. Agencies shall
3 ensure that the project is in compliance with the architecture,
4 infrastructure, principles, policies, and standards of digital
5 government as maintained by the information services board.

6 (4) The agency shall produce a feasibility study for information
7 technology projects at the direction of the information services board
8 and in accordance with published department of information services
9 policies and guidelines. At a minimum, such studies shall include a
10 statement of: (a) The purpose or impetus for change; (b) the business
11 value to the agency, including an examination and evaluation of
12 benefits, advantages, and cost; (c) a comprehensive risk assessment
13 based on the proposed project's impact on both citizens and state
14 operations, its visibility, and the consequences of doing nothing; (d)
15 the impact on agency and statewide information infrastructure; and (e)
16 the impact of the proposed enhancements to an agency's information
17 technology capabilities on meeting service delivery demands.

18 (5) The agency shall produce a comprehensive management plan for
19 each project. The plan or plans shall address all factors critical to
20 successful completion of each project. The plan(s) shall include, but
21 is not limited to, the following elements: A description of the
22 problem or opportunity that the information technology project is
23 intended to address; a statement of project objectives and assumptions;
24 a definition and schedule of phases, tasks, and activities to be
25 accomplished; and the estimated cost of each phase. The planning for
26 the phased approach shall be such that the business case justification
27 for a project needs to demonstrate how the project recovers cost or
28 adds measurable value or positive cost benefit to the agency's business
29 functions within each development cycle.

30 (6) The agency shall produce quality assurance plans for
31 information technology projects. Consistent with the direction of the
32 information services board and the published policies and guidelines of
33 the department of information services, the quality assurance plan
34 shall address all factors critical to successful completion of the
35 project and successful integration with the agency and state
36 information technology infrastructure. At a minimum, quality assurance
37 plans shall provide time and budget benchmarks against which project
38 progress can be measured, a specification of quality assurance
39 responsibilities, and a statement of reporting requirements. The

1 quality assurance plans shall set out the functionality requirements
2 for each phase of a project.

3 (7) A copy of each feasibility study, project management plan, and
4 quality assurance plan shall be provided to the department of
5 information services, the office of financial management, and
6 legislative fiscal committees. The plans and studies shall demonstrate
7 a sound business case that justifies the investment of taxpayer funds
8 on any new project, an assessment of the impact of the proposed system
9 on the existing information technology infrastructure, the disciplined
10 use of preventative measures to mitigate risk, and the leveraging of
11 private-sector expertise as needed. Authority to expend any funds for
12 individual information systems projects is conditioned on the approval
13 of the relevant feasibility study, project management plan, and quality
14 assurance plan by the department of information services and the office
15 of financial management.

16 (8) Quality assurance status reports shall be submitted to the
17 department of information services, the office of financial management,
18 and legislative fiscal committees at intervals specified in the
19 project's quality assurance plan.

20 NEW SECTION. Sec. 903. PROGRAM COST SHIFTS. Any program costs in
21 this act that are shifted to the general fund from another fund or
22 account require an adjustment to the expenditure limit under RCW
23 43.135.035(5).

24 NEW SECTION. Sec. 904. VIDEO TELECOMMUNICATIONS. The department
25 of information services shall act as lead agency in coordinating video
26 telecommunications services for state agencies. As lead agency, the
27 department shall develop standards and common specifications for leased
28 and purchased telecommunications equipment and assist state agencies in
29 developing a video telecommunications expenditure plan. No agency may
30 spend any portion of any appropriation in this act for new video
31 telecommunication equipment, new video telecommunication transmission,
32 or new video telecommunication programming, or for expanding current
33 video telecommunication systems without first complying with chapter
34 43.105 RCW, including but not limited to, RCW 43.105.041(2), and
35 without first submitting a video telecommunications expenditure plan,
36 in accordance with the policies of the department of information
37 services, for review and assessment by the department of information

1 services under RCW 43.105.052. Prior to any such expenditure by a
2 public school, a video telecommunications expenditure plan shall be
3 approved by the superintendent of public instruction. The office of
4 the superintendent of public instruction shall submit the plans to the
5 department of information services in a form prescribed by the
6 department. The office of the superintendent of public instruction
7 shall coordinate the use of video telecommunications in public schools
8 by providing educational information to local school districts and
9 shall assist local school districts and educational service districts
10 in telecommunications planning and curriculum development. Prior to
11 any such expenditure by a public institution of postsecondary
12 education, a telecommunications expenditure plan shall be approved by
13 the higher education coordinating board. The higher education
14 coordinating board shall coordinate the use of video telecommunications
15 for instruction and instructional support in postsecondary education,
16 including the review and approval of instructional telecommunications
17 course offerings.

18 NEW SECTION. **Sec. 905. EMERGENCY FUND ALLOCATIONS.** Whenever
19 allocations are made from the governor's emergency fund appropriation
20 to an agency that is financed in whole or in part by other than general
21 fund moneys, the director of financial management may direct the
22 repayment of such allocated amount to the general fund from any balance
23 in the fund or funds which finance the agency. No appropriation shall
24 be necessary to effect such repayment.

25 NEW SECTION. **Sec. 906. STATUTORY APPROPRIATIONS.** In addition to
26 the amounts appropriated in this act for revenues for distribution,
27 state contributions to the law enforcement officers' and fire fighters'
28 retirement system, and bond retirement and interest including ongoing
29 bond registration and transfer charges, transfers, interest on
30 registered warrants, and certificates of indebtedness, there is also
31 appropriated such further amounts as may be required or available for
32 these purposes under any statutory formula or under chapters 39.94 and
33 39.96 RCW or any proper bond covenant made under law.

34 NEW SECTION. **Sec. 907. BOND EXPENSES.** In addition to such other
35 appropriations as are made by this act, there is hereby appropriated to
36 the state finance committee from legally available bond proceeds in the

1 applicable construction or building funds and accounts such amounts as
2 are necessary to pay the expenses incurred in the issuance and sale of
3 the subject bonds.

4 **Sec. 908.** RCW 43.320.130 and 1993 c 472 s 27 are each amended to
5 read as follows:

6 (1) There is created in the state treasury a fund known as the
7 "securities regulation fund" that shall consist of thirteen percent of
8 all moneys received by the division of securities of the department of
9 financial institutions. Except under subsection (2) of this section,
10 expenditures from the account may be used only for the purchase of
11 supplies and necessary equipment and the payment of salaries, wages,
12 utilities, and other incidental costs required for the regulation of
13 securities, franchises, business opportunities, commodities, and other
14 similar areas regulated by the division. Moneys in the account may be
15 spent only after appropriation.

16 (2) Up to two million dollars may be transferred to the digital
17 government revolving account during the period between July 1, 2001,
18 and December 31, 2001.

19 NEW SECTION. **Sec. 909.** As a management tool to reduce costs and
20 make more effective use of resources, while improving employee
21 productivity and morale, agencies may offer voluntary separation and/or
22 downshifting incentives and options according to procedures and
23 guidelines established by the department of personnel and the
24 department of retirement systems in consultation with the office of
25 financial management. The options may include, but are not limited to,
26 financial incentives for: Voluntary resignation and retirement,
27 voluntary leave-without-pay, voluntary workweek or work hour reduction,
28 voluntary downward movement, or temporary separation for development
29 purposes.

30 Agencies shall report on the outcomes of their plans, and offers
31 shall be reviewed and monitored jointly by the department of personnel,
32 the department of retirement systems, and the office of human resources
33 for reporting to the office of financial management by December 1,
34 2002.

35 NEW SECTION. **Sec. 910.** It is the intent of the legislature that
36 agencies may implement a voluntary retirement incentive program that is

1 cost neutral or results in cost savings provided that such a program is
2 approved by the directors of retirement systems, the office of human
3 resources, and the office of financial management. Agencies
4 participating in this authorization are required to submit a report by
5 June 30, 2003, to the legislature and the office of financial
6 management on the outcome of their approved retirement incentive
7 program. The report should include information on the details of the
8 program including resulting service delivery changes, agency
9 efficiencies, the cost of the retirement incentive per participant, the
10 total cost to the state, and the projected or actual net dollar savings
11 over the 2001-03 biennium.

12 **Sec. 911.** RCW 41.45.030 and 1995 c 233 s 1 are each amended to
13 read as follows:

14 (1) Beginning September 1, 1995, and every two years thereafter,
15 the state actuary shall submit to the council information regarding the
16 experience and financial condition of each state retirement system.
17 The council shall review this and such other information as it may
18 require.

19 (2) By December 31, 1995, and every two years thereafter, the
20 council, by affirmative vote of five councilmembers, shall adopt the
21 following long-term economic assumptions:

- 22 (a) Growth in system membership;
- 23 (b) Growth in salaries, exclusive of merit or longevity increases;
- 24 (c) Growth in inflation; and
- 25 (d) Investment rate of return.

26 The council shall work with the department of retirement systems,
27 the state actuary, and the executive director of the state investment
28 board, and shall consider long-term historical averages, in developing
29 the economic assumptions.

30 (3) Except as provided in subsection (4) of this section and RCW
31 41.45.060, the assumptions adopted by the council shall be used by the
32 state actuary in conducting all actuarial studies of the state
33 retirement systems.

34 (4) For the period beginning July 1, 2001, and ending June 30,
35 2003, the department of retirement systems shall adopt alternative
36 basic employer and state contribution rates calculated by the office of
37 the state actuary based on its 1999 actuarial valuation studies using
38 an eight percent investment rate of return rather than the assumption

1 adopted by the council under subsection 2(d) of this section. The
2 eight percent investment assumption shall also be used by the state
3 actuary in conducting all other actuarial studies of the state
4 retirement systems for the period ending June 30, 2003.

5 **Sec. 912.** RCW 41.45.060 and 2000 2nd sp.s. c 1 s 905 and 2000 c
6 247 s 504 are each reenacted and amended to read as follows:

7 (1) The state actuary shall provide actuarial valuation results
8 based on the assumptions adopted under RCW 41.45.030.

9 (2) Not later than September 30, 1998, and every two years
10 thereafter, consistent with the assumptions adopted under RCW
11 41.45.030, the council shall adopt and may make changes to:

12 (a) A basic state contribution rate for the law enforcement
13 officers' and fire fighters' retirement system;

14 (b) Basic employer contribution rates for the public employees'
15 retirement system, the teachers' retirement system, and the Washington
16 state patrol retirement system to be used in the ensuing biennial
17 period; and

18 (c) A basic employer contribution rate for the school employees'
19 retirement system for funding the public employees' retirement system
20 plan 1.

21 For the 1999-2001 fiscal biennium, the rates adopted by the council
22 shall be effective for the period designated in section 902, chapter 1,
23 Laws of 2000 2nd sp. sess. and RCW 41.45.0602.

24 (3) For the period beginning July 1, 2001, and ending June 30,
25 2003, the department of retirement systems shall adopt alternative
26 basic employer and state contribution rates as developed by the office
27 of the state actuary, based on its 1999 actuarial valuation studies
28 using an eight percent investment rate of return, rather than the
29 assumption adopted by the pension funding council under RCW 41.45.030.
30 The basic state contribution rate for the law enforcement officers' and
31 fire fighters' retirement system, and the basic employer contribution
32 rate for the public employees' retirement system, the teachers'
33 retirement system, the school employees' retirement system, and the
34 Washington state patrol retirement system shall be adopted effective
35 July 1, 2001.

36 (4) The employer and state contribution rates adopted by the
37 council and department shall be the level percentages of pay that are
38 needed:

(a) To fully amortize the total costs of the public employees' retirement system plan 1, the teachers' retirement system plan 1, the law enforcement officers' and fire fighters' retirement system plan 1, and the unfunded liability of the Washington state patrol retirement system not later than June 30, 2024, except as provided in subsection (5) of this section;

(b) To also continue to fully fund the public employees' retirement system plans 2 and 3, the teachers' retirement system plans 2 and 3, the school employees' retirement system plans 2 and 3, and the law enforcement officers' and fire fighters' retirement system plan 2 in accordance with RCW 41.45.061, 41.45.067, and this section; and

(c) For the law enforcement officers' and fire fighters' system plan 2 the rate charged to employers, except as provided in RCW 41.26.450, shall be thirty percent of the cost of the retirement system and the rate charged to the state shall be twenty percent of the cost of the retirement system.

~~((+4))~~ (5) The aggregate actuarial cost method shall be used to calculate a combined plan 2 and 3 employer contribution rate.

~~((+5))~~ (6) An amount equal to the amount of extraordinary investment gains as defined in RCW 41.31.020 shall be used to shorten the amortization period for the public employees' retirement system plan 1 and the teachers' retirement system plan 1.

~~((+6))~~ (7) The council shall immediately notify the directors of the office of financial management and department of retirement systems of the state and employer contribution rates adopted.

~~((+7))~~ (8) The director of the department of retirement systems shall collect those rates adopted ~~((by the council))~~ under this section.

Sec. 913. RCW 43.08.250 and 2000 2nd sp.s. c 1 s 911 are each amended to read as follows:

The legislature shall appropriate the funds in the account to promote traffic safety education, highway safety, criminal justice training, crime victims' compensation, judicial education, the judicial information system, civil

1 representation of indigent persons, winter recreation parking, and

20 ~~corrections' offender-based tracking system))~~).

21 **Sec. 914.** RCW 43.72.902 and 2000 2nd sp.s. c 1 s 913 are each
22 amended to read as follows:

23 The public health services account is created in the state
24 treasury. Moneys in the account may be spent only after appropriation.
25 Moneys in the account may be expended only for maintaining and
26 improving the health of Washington residents through the public health
27 system. For purposes of this section, the public health system shall
28 consist of the state board of health, the state department of health,
29 and local health departments and districts. During the ~~((1999-2001))~~
30 2001-2003 biennium, moneys in the fund may also be used for costs
31 associated with hepatitis C testing and treatment in correctional
32 facilities.

33 **Sec. 915.** RCW 72.11.040 and 2000 2nd sp.s. c 1 s 914 are each
34 amended to read as follows:

35 The cost of supervision fund is created in the custody of the state
36 treasurer. All receipts from assessments made under RCW 9.94A.270 and

6 the secretary of the department of corrections or the secretary's
7 designee may authorize expenditures from the fund. The fund is subject
8 to allotment procedures under chapter 43.88 RCW, but no appropriation
9 is required for expenditures.

10 **Sec. 916.** RCW 69.50.520 and 2000 2nd sp.s. c 1 s 917 are each
11 amended to read as follows:

12 The violence reduction and drug enforcement account is created in
13 the state treasury. All designated receipts from RCW 9.41.110(8),
14 66.24.210(4), 66.24.290(2), 69.50.505(h)(1), 82.08.150(5),

28 ~~least seven and one-half percent of expenditures from the account shall~~
29 ~~be used for providing grants to community networks under chapter 70.190~~

31 **Sec. 917.** RCW 43.135.045 and 2001 c 3 s 9 (Initiative Measure No.
32 728), 2000 2nd sp.s. c 5 s 1, and 2000 2nd sp.s. c 2 s 3 are each
33 reenacted and amended to read as follows:

34 (1) The emergency reserve fund is established in the state
35 treasury. During each fiscal year, the state treasurer shall deposit
36 in the emergency reserve fund all general fund--state revenues in
37 excess of the state expenditure limit for that fiscal year. Deposits

1 shall be made at the end of each fiscal quarter based on projections of
2 state revenues and the state expenditure limit. The treasurer shall
3 make transfers between these accounts as necessary to reconcile actual
4 annual revenues and the expenditure limit for fiscal year 2000 and
5 thereafter.

6 (2) The legislature may appropriate moneys from the emergency
7 reserve fund only with approval of at least two-thirds of the members
8 of each house of the legislature, and then only if the appropriation
9 does not cause total expenditures to exceed the state expenditure limit
10 under this chapter.

11 (3) The emergency reserve fund balance shall not exceed five
12 percent of annual general fund--state revenues as projected by the
13 official state revenue forecast. Any balance in excess of five percent
14 shall be transferred on a quarterly basis by the state treasurer as
15 follows: Seventy-five percent to the student achievement fund hereby
16 created in the state treasury and twenty-five percent to the general
17 fund balance. The treasurer shall make transfers between these
18 accounts as necessary to reconcile actual annual revenues for fiscal
19 year 2000 and thereafter. When per-student state funding for the
20 maintenance and operation of K-12 education meets a level of no less
21 than ninety percent of the national average of total funding from all
22 sources per student as determined by the most recent published data
23 from the national center for education statistics of the United States
24 department of education, as calculated by the office of financial
25 management, further deposits to the student achievement fund shall be
26 required only to the extent necessary to maintain the ninety-percent
27 level. Remaining funds are part of the general fund balance and these
28 funds are subject to the expenditure limits of this chapter.

29 (4) The education construction fund is hereby created in the state
30 treasury.

31 (a) Funds may be appropriated from the education construction fund
32 exclusively for common school construction or higher education
33 construction.

34 (b) Funds may be appropriated for any other purpose only if
35 approved by a two-thirds vote of each house of the legislature and if
36 approved by a vote of the people at the next general election. An
37 appropriation approved by the people under this subsection shall result
38 in an adjustment to the state expenditure limit only for the fiscal

1 period for which the appropriation is made and shall not affect any
2 subsequent fiscal period.

3 (5) Funds from the student achievement fund shall be appropriated
4 to the superintendent of public instruction strictly for distribution
5 to school districts to meet the provisions set out in the student
6 achievement act. Allocations shall be made on an equal per full-time
7 equivalent student basis to each school district.

8 (6) Earnings of the emergency reserve fund under RCW
9 43.84.092(4)(a) shall be transferred quarterly to the multimodal
10 transportation account, except for those earnings that are in excess of
11 thirty-five million dollars each fiscal year. Within thirty days
12 following any fiscal year in which earnings transferred to the
13 multimodal transportation account under this subsection did not total
14 thirty-five million dollars, the state treasurer shall transfer from
15 the emergency reserve fund an amount necessary to bring the total
16 deposited in the multimodal transportation account under this
17 subsection to thirty-five million dollars. The revenues to the
18 multimodal transportation account reflected in this subsection provide
19 ongoing support for the transportation programs of the state. However,
20 it is the intent of the legislature that any new long-term financial
21 support that may be subsequently provided for transportation programs
22 will be used to replace and supplant the revenues reflected in this
23 subsection, thereby allowing those revenues to be returned to the
24 purposes to which they were previously dedicated.

25 (7) Beginning in fiscal year 2002, the state treasurer shall
26 transfer fifty million dollars a year, or any other amount appropriated
27 for this purpose, from the emergency reserve fund to the multimodal
28 transportation account. This transfer shall take place subsequent to
29 any calculation of deposits to the student achievement fund as required
30 under subsection (3) of this section.

31 NEW SECTION. **Sec. 918.** If any provision of this act or its
32 application to any person or circumstance is held invalid, the
33 remainder of the act or the application of the provision to other
34 persons or circumstances is not affected.

35 NEW SECTION. **Sec. 919.** This act is necessary for the immediate
36 preservation of the public peace, health, or safety, or support of the

1 state government and its existing public institutions, and takes effect
2 immediately.
